Join us to enhance your knowledge of riparian systems, created wetlands and ecosystem management. Specific areas to be addressed as they relate to this topic include:

- What are riparian system functions?
- What is the value of sustaining natural riparian systems?
- How are ecosystems managed?
- How do created wetlands and riparian systems fit into the water resources picture?

Explore these and other themes as you meet researchers from ASU and U of A, local water and science experts, and adapt materials to enhance your current water education programs.

**WHEN:**
July 18 – 19, 2012  
9:00 a.m. – 4:00 p.m. daily

**WHERE:**
Arizona State University,  
Decision Center for a Desert City  
Brickyard Orchid House,  
21 E. 6th Street, Suite 126-B, Tempe 85281

Stipend: $100  
Recertification credits available!
