Sustainable Summer: Coping with Phoenix Heat – Past, Present, and Future

Wednesday, June 13, 2012
12:00 – 1:30 p.m.
(Lunch will be served)
Wrigley Hall, Room 481

Hot enough for you?
Join a team of experts to learn how to make your home and garden a cooler, more energy- and water-efficient oasis during the long, hot Arizona summer. Discover what the climate was like for past generations of Arizonans, what shapes it now, and what the future holds. Find out how people used to deal with the summer heat in days gone by and explore ideas for the perfect Valley of the Sun home of tomorrow.

Tony Brazel
Professor Emeritus, School of Geographical Sciences and Urban Planning
Former Arizona State Climatologist

Mick Dalrymple
Project Manager, Energize Phoenix
Former Director, National Board, U.S. Green Building Council
