

Ecology as Theology: The Future is Calling Us to Greatness

Reverend Michael Dowd

Author and Evolutionary Theologian

In this talk, Dowd will discuss a worldwide meta-religious movement that has been emerging for decades at the nexus of science, inspiration, and sustainability. He will describe how society can be united by a pool of common values, priorities, and commitments regarding the importance of living in the right relationship to reality and how we can work together in service of a just and thriving future for humanity and the larger body of life.

Dowd's bridge-building book, *Thank God for Evolution*, was endorsed by 6 Nobel Prize-winning scientists, noted skeptics, and by religious leaders across the spectrum. His work has been featured in *The New York Times*, *LA Times*, *Wall Street Journal*, *Washington Post*, *Newsweek*, *Wired*, *Discover*, and on CNN, ABC News, and Fox News.
